

Lars Friedrich

Manager of CHEMPARK and head of the CHEMPARK & Safety function in the Site Services unit

Lars Friedrich was born in Wuppertal, Germany, on March 27, 1972. In 1988, he began his vocational training as a chemical laboratory technician at Bayer AG in Wuppertal. He then studied safety engineering at the University of Wuppertal between 1991 and 1996. Following his return to Bayer AG, he completed training as a fire safety engineer in 1999 in collaboration with the City of Cologne's fire department.

He assumed several positions at Bayer AG in the company fire departments in Leverkusen, Dormagen and Krefeld-Uerdingen, which were transferred to the predecessor of Currenta GmbH & Co. OHG – Bayer Industry Services – in 2002. In 2009, within CURRENTA's Safety and Security Business Unit, Friedrich became head of Fire Protection, the Safety and Security Control Center and Crisis Management for all three CHEMPARK sites. In 2015, he transferred to the Environment Business Unit, where he was in charge of Refrigeration and Water Supply.

Since April 1, 2017 he has been Manager of CHEMPARK and head of the CHEMPARK & Safety function in the Site Services unit.
