Dr. Alexander Wagner

Executive Board member of Currenta GmbH & Co. OHG

(Biography)

Dr. Alexander Wagner was born in Braunschweig, Germany, in 1970. After studying mechanical engineering with a concentration in process engineering at RWTH Aachen University, he obtained his doctorate from Leibniz Universität Hannover in 1999.

Wagner began his career at Bayer AG in 2000 as technical manager of a production facility for organic intermediates in Krefeld-Uerdingen. Two years later he assumed the position of technical manager for several multi-component production facilities of the Fine Chemicals Business Group, which from 2004 belonged to LANXESS. In 2006, he was named Head of Procurement Technical Goods and Services at the newly established Saltigo GmbH. He returned to LANXESS in 2010 as Head of Technology for the Advanced Industrial Intermediates business unit's aromatics network at the Leverkusen, Dormagen and Brunsbüttel sites. In 2013, Wagner assumed responsibility for the unit's global business with benzyl products and inorganic acids.

Since October 1, 2015, Dr. Alexander Wagner has been a member of the Executive Board of Currenta GmbH & Co. OHG. Among his functions on the Board is that of Labor Director.
